ASSOC. PROF. KOJI NISHIFUJI

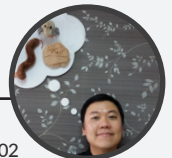

DVM PhD, DipAiCVD
Tokyo University of Agriculture
& Technology, Tokyo, Japan

Dr. Koji Nishifuji gained a PhD from the United Graduate School of Veterinary Sciences, Gifu University and became a postdoctoral research fellow in the Department of Dermatology, Keio University School of Medicine. From 2007 to 2009, he was a Senior Assistant Professor, Division of Animal Life Science, Graduate School, Tokyo University of Agriculture and Technology and is currently an Associate Professor at the same institution. He is a Diplomate of the Asian College of Veterinary Dermatology and the current President of the Asian Society of Veterinary Dermatology; the current Vice President of the Japanese Society of Veterinary Dermatology; an Administrative Committee Member of the World Association for Veterinary Dermatology. His area of special interest in research includes cutaneous barrier function and atopic dermatitis, desmosomal adhesion and related-skin diseases, staphylococcal skin infections and hair follicle stem cells.

DR. HAN HOCK SIEW

DVM (UPM) MRCVS, DipAiCVD

Dr. Han Hock Siew graduated from University Putra Malaysia (UPM) in 2002 and completed the European School for Advanced Veterinary Studies (ESAVS) Dermatology Full Course in 2013. He then proceeded to his dermatology residency with the Asian College of Veterinary Dermatology (AiCVD) under the mentorship of Charles Chen (Taiwan) and Chiara Noli (Italy) before obtaining his diploma in 2017. Dr. Han currently provides referral and second opinion dermatological consults in Singapore and Malaysia. His main research interests revolve around the provision of evidence based dermatological solutions to specific regional dermatological diseases, and has published on such topics such as feline sporotrichosis, feline Lynxacarisis and recently updated the treatment of cutaneous screwworm infestations.
