Veterinary Association

**8TH SEPTEMBER 2021  
WEDNESDAY  
8.00 PM (GMT+8)**

# Feline Oral Neoplasia: the good, the bad and the ugly.

## Overview:

In Wednesday night, the speaker will dive deep into the treatment of feline oral neoplasia. In her experience, feline oral neoplasia delivered some of the most challenging cases she has seen as a surgeon.

She will start with a short introduction of feline oral neoplasia with emphasis on the most common oral neoplastic lesions in cats. There will be a brief description of all different treatment modalities available and their efficacy, after which will turn the attention to the surgical interventions for maxillary and mandibular neoplasia in cats. She will discuss four of her most memorable patients along the way, and what will share with you what they taught her.

## SPEAKER:

**DR. LUCINDA L. VAN STEE (DVM, DECVS)**

Dr. Lucinda is a Surgeon as well as a Lecturer in Small Animal Surgery at the Small Animal Teaching Hospital (UKG), Utrecht University, The Netherlands. She is also recognized as ECVS board-certified Small Animal Surgeon.

## MODERATOR:

**ASSOC. PROF. DR. GAYATHRI THEVI SELARAJAH**
