

SPEAKERS

NATIONAL SCIENTIFIC CONFERENCE, EXHIBITION & 36TH AGM

MSAVA
Malaysian Small Animal
Veterinary Association

**NATIONAL
SCIENTIFIC
CONFERENCE 2026**

INVITED SPEAKERS

DR. TAKUO ISHIDA

KEYNOTE SPEAKER

*President
Federation of Asian Small Animal Veterinary
Association (FASAVA)*

*Medical Director
Akasaka Animal Hospital*

Keynote Address:

The Human-Animal Bond and the
Social Responsibilities of the Veterinary
Profession

Presentation Topics:

1. Clinical Pathology of Dogs and Cats (CBC, Chemistry and Urinalysis): Proper Use in Problem-Oriented Diagnostic Reasoning
2. Problem-Oriented Medical Approach and Arts of Diagnosis Part 1
3. Problem-Oriented Medical Approach and Arts of Diagnosis Part 2
4. Feline Gastrointestinal Diseases: A Practical Diagnostic and Management Approach

DR. ALI ANWAR

*Veterinarian
Department of Veterinary Healthcare & Scientific
Programmes
Mandai Wildlife Group, Singapore*

Memorial Lecture:

A Legacy Told in Stories: Honouring
Assoc. Prof. Dato' Dr. Vellayan Subramaniam,
Father of Malaysian Zoo Medicine

DR. CHAN WEI YEE

*Senior Lecturer
Department of Companion Animal Medicine and
Surgery, Faculty of Veterinary Medicine
Universiti Putra Malaysia*

Presentation Topic:

Canine Atopic Dermatitis Versus Feline Atopic
Skin Syndrome

**ASSOCIATE PROF.
DR. GAYATHRI THEVI
SELVARAJAH**

*Lecturer
Clinical Consultant in Small Animal Oncology
University Putra Malaysia
Faculty of Veterinary Medicine
University Putra Malaysia*

Presentation Topic:

Do or Die Situations in Managing Oncology
Patients

DR. JOSHUA STEINHAUS

*DACVIM (SAIM), DECIM-CA
Chief Medical Officer/Internal Medicine Consultant
VetiVa Center For Animal Wellness*

Presentation Topics:

1. The Acute Abdomen in Dogs: Beyond the Obvious
2. Traumatic Brain Injury and Acute Neurological Disorders
3. Changing Paradigms in the Treatment of Immune-Mediated Disease: The Role of Therapeutic Plasma Exchange (Plasmapheresis) in Veterinary Medicine

MSAVA
Malaysian Small Animal
Veterinary Association

**NATIONAL
SCIENTIFIC
CONFERENCE 2026**

INVITED SPEAKERS

**DR. MANUEL
JIMÉNEZ PELÁEZ**

LV, MRCVS, Dipl. ECVS
Head of Surgery, Co-Director, Founding Partner
Auna Especialidades Veterinarias IVC Evidencia
Valencia (Spain)

Presentation Topics:

1. Tumor of Genital (Female)
2. Thoracic Bites
3. Surgery of Small Intestines
4. Septic Peritonitis

DR. MARK GLYDE

Associate Professor, Small Animal Surgery
Murdoch University, Australia

Presentation Topics:

1. Decision Making in Fracture Management:
Fracture Assessment and How to Make the
Right Decisions
2. Managing Open Fractures in Dogs and Cats:
Case Studies and Surgical Decision-Making
3. Surgical Treatment of Physeal Fractures in
Immature Dogs and Cats

DR. MINJI LEE

Teaching Fellow
Department of Companion Animal Medicine
and Surgery
Faculty of Veterinary Medicine
Universiti Putra Malaysia
Advisory Board Member
Korean Society of Feline Medicine

Presentation Topics:

1. Feline Kidney Diseases: All in One Part 1
2. Feline Kidney Diseases: All in One Part 2

**ASSOC. PROF. DR
NALINEE TUNTIVANICH**

Associate Professor
Department of Veterinary Surgery
Faculty of Veterinary Science
Chulalongkorn University, Thailand

Presentation Topics:

1. Ocular Emergency Surgery in Dogs and Cats
2. Ocular Adnexa Surgery in Dogs and Cats

DR. SIM ZHI HUI

Teaching Fellow
Faculty of Veterinary Medicine
Universiti Putra Malaysia

Presentation Topic:

Clinical Approach to Common Corneal Diseases
in Dogs and Cats

DR. SIVAN AYAHSAMY

Senior Veterinary Surgeon
Animal Medical Center

Presentation Topic:

From Principle to Practice: Computed
Tomography (CT) of Thorax and Abdomen in
Small Animals

Dr. Ali Anwar

Veterinarian

Department of Veterinary Healthcare & Scientific Programmes
Mandai Wildlife Group, Singapore

Dr. Ali Anwar Ahmad is a veterinarian specializing in wildlife, zoo, and exotic animal medicine, with nearly two decades of experience at Mandai Wildlife Group, Singapore. His expertise includes aquatic medicine, wildlife anaesthesia, dentistry, and conservation medicine.

He plays a key role in managing aquatic animal health programs and contributes actively to regional conservation and capacity-building initiatives in Southeast Asia.

Dr. Anwar is a Diplomate of the Asian College of Conservation Medicine and a Certified Aquatic Veterinarian, with numerous peer-reviewed publications and contributions to exotic animal medicine literature.

He currently serves as President of the Wildlife and Exotic Veterinarian Special Interest Group and is a Board Member of the Asian Society of Conservation Medicine.

Dr. Chan Wei Yee

Senior Lecturer

Department of Companion Animal Medicine and Surgery
Faculty of Veterinary Medicine, Universiti Putra Malaysia

Dr. Chan Wei Yee obtained her Doctor of Veterinary Medicine (2006) and Master of Veterinary Medicine (2013) from Universiti Putra Malaysia (UPM), Malaysia. She pursued and obtained her PhD from the University of Adelaide, Australia, in December 2019. Her PhD study is focusing on the area of veterinary microbiology, otology and dermatology. Inspired to pursue the path of education, Dr Chan Wei Yee joined her alma mater as a senior lecturer in October 2020 till now.

Aside from teaching and clinical service in small animal dermatology, Dr Chan Wei Yee is conducting ongoing research entitled "The emergence of multidrug resistance: Isolation and identification and characterisation of antimicrobial susceptibility pattern of pathogenic bacteria from ears of dogs and cats".

She enjoys jogging/walking, hiking, watching TV, exploring travel destinations and shopping during her free time.

**Associate Prof. Dr. Gayathri
Thevi Selvarajah**

Lecturer, Clinical Consultant in Small Animal Oncology

University Putra Malaysia, Faculty of Veterinary Medicine

Dr. Gayathri Thevi Selvarajah is an Associate Professor at the Department of Veterinary Clinical Studies, Faculty of Veterinary Medicine, Universiti Putra Malaysia (UPM). She earned her Doctor of Veterinary Medicine from UPM in 2005 and her Doctor of Philosophy from University of Utrecht, The Netherlands, in 2011. She was awarded the De Facto Diplomate status by the Asian College of Veterinary Internal Medicine in the field of Oncology in July 2023. She is currently the Clinical Consultant in Oncology at the University Veterinary Hospital, UPM and a Visiting Professor at Universitas Brawijaya in

Malang, Indonesia. She attends to referred oncology cases from all over Malaysia. Besides cancer, she has a strong interest in zoonotic and infectious diseases, particularly in the molecular characterization and epidemiology of emerging and cross-species pathogens. She has published extensively in national and international peer-reviewed journals. Besides her routine work, she has a passion to contribute to continuing professional education for local and international veterinarians. At the international level, she is a member of the Veterinary Cancer Society and the Veterinary Society of Surgical Oncology.

Dr. Minji Lee

Teaching Fellow

Department of Companion Animal Medicine and Surgery
Faculty of Veterinary Medicine, Universiti Putra Malaysia
Advisory Board Member, Korean Society of Feline Medicine

Dr. Minji Lee is a small animal internal medicine clinician with over 10 years of clinical experience.

She completed doctoral coursework in Veterinary Internal Medicine at Chungbuk National University and worked as a lead internist in 24-hour animal hospitals, where she

primarily managed complex internal medicine cases and geriatric patients.

Dr. Lee previously served as a board member of the Korean Society of Feline Medicine.

Dr. Joshua Steinhaus

*Chief Medical Officer/Internal Medicine Consultant
VetiVa Center For Animal Wellness*

Joshua Steinhaus, MSc, BVMS, DACVIM, DECVIM, is a small animal internal medicine specialist and interventional radiology clinician based in Hong Kong. He is currently the CMO of Vetiva Center for Animal Wellness (since 2023) and serves as an IRIS Ambassador to Hong Kong. He is also a Member of the Veterinary Surgeons Board (Hong Kong) and IRIS Ambassador to Hong Kong.

Dr. Steinhaus has over a decade of specialty clinical experience, including internal medicine and interventional radiology roles at Veterinary Specialty Hospital Hong Kong (2015–2022) and Peace Avenue Veterinary Centre (2014–2015), as well as internal medicine practice in the UK. He completed an Interventional Radiology Fellowship

at the Animal Medical Center in New York (2012–2013), following an Internal Medicine Residency at the Veterinary Referral and Emergency Center in Connecticut (2009–2012). Earlier in his career, he worked extensively in emergency and referral practice in the United States.

His training includes the Hemodialysis Academy (UC Davis, 2014–2015). He earned a BVMS from Murdoch University (Australia) and holds graduate and undergraduate degrees in biology from Hofstra University and Franklin & Marshall College. He maintains active affiliations with nephrology, interventional radiology, and feline medicine societies, and has authored peer-reviewed and conference publications.

Dr. Manuel Jiménez Peláez

*Head of Surgery, Co-Director, Founding Partner
Auna Especialidades Veterinarias IVC Evidencia Valencia (Spain)*

Manuel Jiménez Peláez was born in Malaga (Spain), graduated from the University of Córdoba (Spain) in 1999. He was the first Spanish performing an official residency program (ECVS) to obtain the specialisation in small animal surgery. He owns the European and RCVS Recognised Specialist status in Small Animal Surgery being a Diplomate of the European College of Veterinary Surgeons (Dipl. ECVS).

He spent 14 years training and working in France and in the United Kingdom. He did a surgical internship at the Vet School of Cordoba and then he moved to France to pursue his surgical training for 7 years. During that period, he performed 3 years of internships (1 general and 2 surgical at the École Nationale Vétérinaire de Lyon) and a 3-years ECVS (European College of Veterinary Surgeons) residency program in surgery at the "Centre Hospitalier Vétérinaire Frégis" in Paris), being the first Spanish doing the ECVS residency.

In 2007 he moved to the United Kingdom where he has been working as a senior clinician in surgery for the

following 6 years at the "Animal Health Trust" and "Davies Veterinary Specialists".

Since July 2013 he is back in Spain working in Valencia and since August 2015, he is one of the founding partners, co-director and head of surgery of the multi-disciplinary referral hospital AÚNA Especialidades Veterinarias – IVC Evidencia in Valencia, Spain. From 2025, he is also an independent Consultant for complicated surgical cases in Spain.

He is a regular contributor to Continued Professional Development (CPD) in several countries. He has published a number of original articles in national and international reviews and book chapters. He is also reviewer for several national and international journals.

His areas of greatest expertise are soft tissue surgery, minimally invasive surgery, and surgical oncology.

Dr. Mark Glyde

*Associate Professor Small Animal Surgery
Murdoch University, Australia*

Mark is Associate Professor of Small Animal Surgery at Murdoch University. He holds specialist registration in Australia, UK and Europe, is a Diplomate of the ECVS and a Fellow of the RCVS. Mark brings over 30 years of international experience in orthopaedics and arthroscopy. He is an internationally recognised and awarded educator, whose research spans fracture and implant biomechanics,

cruciate disease, patella luxation and joint loading. His career mission is to make an enduring positive impact on the animals in his care, the people who love them and the veterinary teams who serve both.

Assoc. Prof. Dr Nalinee Tuntivanich

Associate Professor

Department of Veterinary Surgery, Faculty of Veterinary Science
Chulalongkorn University, Thailand

Associate Professor of the Department of Veterinary Surgery, Faculty of Veterinary Science, Chulalongkorn University, Thailand. She received Doctor of Veterinary Medicine (1996; Chulalongkorn University), Ph.D in Comparative Medicine and Integrative Biology (Dissertation in Veterinary Ophthalmology) (2006; Michigan State University), Diplomate of the Asian College of Veterinary Ophthalmologists (AiCVO) (2014) and Diplomate of the Thai Board of Veterinary Surgeon (TBVS) (2016). Since 2007, she has been a person in charge of

the veterinary ophthalmology unit, Small Animal Teaching Hospital, Faculty of Veterinary Science, Chulalongkorn University with an effort to precede the field of veterinary ophthalmology of Thailand to international. She is at present a vice president of the Asian Society of Veterinary Ophthalmologists (AiSVO) and the president of the Thai Society of Veterinary Ophthalmology Practitioners (TSVOP). Her field of interest includes ocular surgery, corneal reconstruction, glaucoma, and electroretinography.

Dr. Sim Zhi Hui

Teaching Fellow

Faculty of Veterinary Medicine, Universiti Putra Malaysia

Dr. Sim Zhi Hui obtained her Doctor of Veterinary Medicine degree from the Faculty of Veterinary Medicine, Universiti Putra Malaysia, in 2008. She then achieved a Certificate in Veterinary Ophthalmology from the University of Sydney in 2011 and completed a Master of Science degree in Clinical Studies (Ophthalmology) from Ontario Veterinary College, the University of Guelph in 2016.

She is now a Teaching Fellow in Veterinary Ophthalmology at the Faculty of Veterinary Medicine, UPM, with special interests in uveitis, corneal wound healing, and ocular pharmacology.

Dr. Sivan Ayahsamy

Senior Veterinary Surgeon
Animal Medical Center

Dr. Sivan Ayahsamy obtained his Doctor of Veterinary Medicine degree from University Putra Malaysia in 1999 and commenced his career in small animal clinical practice following graduation. In 2005, he began formal specialisation in diagnostic imaging, with subsequent advanced training in small animal radiology and ultrasonography, followed by specialisation in computed tomography (CT).

He completed postgraduate diploma and certificate programmes in diagnostic imaging from the University of Sydney, Madras Veterinary College and Royal Veterinary

College. With more than 15 years of dedicated experience in veterinary diagnostic imaging, Dr. Sivan has developed particular expertise in advanced CT imaging and ultrasonography. He also has a special interest in exotic animal medicine and imaging.

He currently serves as a consultant in diagnostic imaging at an Animal Medical Centre and functions as a referral imaging specialist.

Beyond his professional activities, he maintains an active interest in outdoor pursuits, particularly hiking and mountaineering.

Dr. Takuo Ishida

Medical Director
Akasaka Animal Hospital

Dr. Takuo Ishida graduated from Nippon Veterinary and Zootechnical College with a DVM degree in 1976. His graduate study was at University of Tokyo, and he obtained PhD in 1981 with pathogenesis studies of coronavirus infection. He studied at University of California, Davis as a postdoctoral fellow at Oncology Section with Dr. Theilen and Dr. Pedersen as the sponsor professors. He returned to Japan and became assistant professor of clinical pathology

at Nippon Veterinary and Zootechnical College in 1985. He became a board certified pathologist and a member of Japanese College of Veterinary Pathologists (JCVP). He left the school as associate professor in 1998, and joined Akasaka Animal Hospital in Tokyo as the medical director. He founded the Japanese Board of Veterinary Practitioners (JBVP) in 1998 and started a nation-wide continuing education lecture series.

MSAVA
Malaysian Small Animal
Veterinary Association

**NATIONAL
SCIENTIFIC
CONFERENCE 2026**

SPONSORED SPEAKERS

DR. PATRICK MAGUIRE

*Specialist in Veterinary Surgery
Co-Founder and Head of Surgery
Beecroft Animal Specialist
& Emergency Hospital
Singapore*

DAY 1: 8 AUGUST 2026, 11:00AM – 11:45AM (STREAM 3)

Presentation Topic:

Subtotal Colectomy for General Practitioners: Patient Selection, Surgical Considerations and Common Pitfalls

DAY 1: 8 AUGUST 2026, 2:45PM – 3:30PM (STREAM 3)

Presentation Topic:

Hip Osteoarthritis

DR. DORIS TIMMANN

*Medical Advisor
VetViva Richter GmbH*

DAY 1: 8 AUGUST 2026, 11:45AM – 12:30PM (STREAM 3)

Presentation Topic:

Better Together: Optimizing Pain Control Through Multimodal Strategies

DR. JAVIER ENGEL-MANCHADO

*Small Animal Veterinary
Cardiologist
AVEPA-Accredited in Cardiology
HearBeatVet Cardiology Service
Universidad de Las Palmas de
Gran Canaria*

DAY 1: 8 AUGUST 2026, 2:00PM – 2:45PM (STREAM 3)

Presentation Topic:

Cardiac Diseases with X-ray Result Sharing

1. Basics of Standardized Small Animal Cardiac X-ray Reading
2. Typical X-ray Features of Common Cardiac Diseases
3. X-ray Identification of Cardiac Complications (Pulmonary Edema, Pleural Effusion)

PROF. DR. BULENT KUKURTCU

*Scientific Advisor and Managing Director
Catalysis S.L. (Madrid, Spain)*

**DAY 1: 8 AUGUST 2026,
3:30PM – 4:00PM (STREAM 3)**

Presentation Topic:

Viusid Vet®: Unlocking Animal Potential Through Molecular Activation. Science-Based Solutions for Immunity, Resilience and Sustainable Performance.

DR. CHEN SHIN YEE

*Head of Research & Development
Pet World Nutritions Sdn. Bhd.*

**DAY 1: 8 AUGUST 2026,
4:00PM – 4:15PM (STREAM 3)**

Presentation Topic:

ProVet+: Malaysia's Exciting Advancement in Veterinary Nutrition

Dr. Doris Timmann

Dr. Doris Timmann, DVM, is a veterinarian with a residency in veterinary neurology (ECVN), and is a Certified Veterinary Acupuncturist (CVA) and Certified Veterinary Chiropractor (CVC). She serves as an international Medical Advisor for VetViva Richter GmbH, specialising in pain management and anaesthesia, while also running a neurology, integrative pain medicine, and rehabilitation practice in northern Germany. Dr. Doris is an active international speaker, editor, and advocate for veterinary mental health, with expertise in neurobiology, pain management, trauma, and rehabilitation.

Dr. Patrick Maguire

Dr. Patrick Maguire is a Specialist Veterinary Surgeon with more than two decades of experience across Australia, California, New York and Singapore. He is the first and only Singapore-based diplomate of the American College of Veterinary Surgeons.

His expertise includes joint surgery, hip replacement, angular limb correction, soft tissue surgery and neurosurgery. His research has appeared in leading veterinary journals, and he regularly presents major international conferences. He also contributes to the Singapore Veterinary Association's therapeutic guidelines committee and collaborates with specialists worldwide.

Committed to evidence-based medicine, Dr Patrick combines technical excellence with empathy and prudent clinical judgement. As a leader, he promotes inclusive daily case discussions and values every team member's perspective. His guidance helps Beecroft deliver world-class multidisciplinary care while advancing specialist veterinary standards across Southeast Asia and improving the lives of animals and their families.

Dr. Javier Engel-Manchado

Veterinary surgeon specialising in small-animal cardiology, with long-standing clinical, academic and scientific experience in cardiorespiratory medicine. Graduated in Veterinary Medicine from the University of Las Palmas de Gran Canaria in 1997 and awarded a PhD in 2025 with the thesis "New diagnostic support techniques for myxomatous mitral valve disease in dogs", graded Sobresaliente Cum Laude. AVEPA-accredited in Cardiology since 2014 and holder of the RCVS Certificate in Advanced Veterinary Practice since 2020.

CLINICAL AND ACADEMIC EXPERIENCE

More than two decades of experience in small-animal clinical practice, with responsibility for cardiopulmonary/ cardiorespiratory departments in referral veterinary hospitals in Valencia, Denia and Calpe. Former lecturer in Medical Pathology and Nutrition at Universidad CEU Cardenal Herrera, with extensive undergraduate clinical teaching activity, and Director of a five-month postgraduate Master's programme in Veterinary Cardiology at I-VET.

RESEARCH, PUBLICATIONS AND EDITORIAL ACTIVITY

Research interests include canine myxomatous mitral valve disease, echocardiographic indices, quality-of-life assessment, machine learning applied to cardiology, feline cardiomyopathies and emergency cardiorespiratory medicine. Author or co-author of peer-reviewed papers, professional review articles, textbooks and book chapters, including recent publications in Veterinary Research Communications, Veterinary Sciences, Pets, Journal of Veterinary Internal Medicine, AJVR and Topics in Companion Animal Medicine. Co-author/editor of Manual de protocolos de urgencias and Manual del ATV, and contributor to several cardiology, feline medicine and respiratory medicine textbooks.

KEY COMPETENCIES

Small-animal cardiology; echocardiography; electrocardiography; thoracic cardiorespiratory assessment; emergency and critical care cardiology; postgraduate teaching; scientific writing; clinical research design; veterinary translation and editorial work. English: Cambridge B2 certificate.

Veterinary Association

**NATIONAL
SCIENTIFIC
CONFERENCE 2026**

**SPONSORED SPEAKERS'
PROFILE**

Prof. Dr. Bulent Kukurtcu

PETWORLD™
Bridging Lives®

Prof. Bulent Kukurtcu, a scientific advisor and Managing Director at Catalysis S.L., is a marine biologist with over 30 years of experience in natural bioactive compounds and marine bioprospecting. His work focuses on translating scientific research into practical health and nutritional solutions for companion animals, livestock, and aquaculture. He specializes in the development of scientifically formulated veterinary and agricultural supplements. He is also a co-author of multiple peer-reviewed scientific publications detailing the efficacy of these nutritional alternatives in animal health.

Dr. Chen Shin Yee

PETWORLD™
Bridging Lives®

Dr. Chen Shin Yee is a veterinarian and Head of Research & Development at Pet World Nutritions, Malaysia. A 2004 alumnus of University Putra Malaysia's Faculty of Veterinary Medicine, she has dedicated her career to animal feed formulation since 2011. In her current executive role, Dr Chen directs product development and enforces uncompromising benchmarks across QA/QC, Regulatory Affairs, and Food Safety Certifications. Fueled by a deep-rooted passion for animal health, she expertly formulates the core pet food portfolios for Pet World and is the visionary mind behind the formulation of ProVet+, the next exciting advancement in veterinary diets for beloved pets.

Dr. Kiew Lik Jun

Pet First Veterinary Center

Veterinary surgeon in private practice for 23 years, with the last decade focused on small-animal orthopaedics. I founded Pet First Veterinary Center in 2006 and built it into a referral practice for the central and northern peninsula, now handling around 250 orthopaedic cases a year, including TPLO, corrective osteotomy and complex joint reconstructions. Alongside clinical work, I teach at regional workshops, present at conferences across Asia, and am currently pursuing for an MVSc (Surgery) at Universiti Putra Malaysia.

DAY 1: 4.00PM - 4.15PM (STREAM 2)

Presentation Topic: Surgical Management of Dorsal Scapular Luxation in a Dog: A Case Study

Dr. Lee Yew Hong

J B Animal Medical Clinic

Dr. Lee Yew Hong is a highly skilled veterinarian with a strong interest in orthopedic medicine. He earned his Doctor of Veterinary Medicine degree from Universiti Putra Malaysia (UPM) in 2000, laying a solid foundation for his career in animal healthcare.

Throughout his professional journey, Dr. Lee has dedicated himself to the advancement of orthopedic treatments and procedures. His primary areas of interest include long bone osteogenesis, TPLO (Tibial Plateau Leveling Osteotomy), Rapid TTA (Rapid Tibial Tuberosity Advancement), PGR (Patella Groove Replacement), limb deformity corrective osteotomy and Total Hip Replacement (THR). He is currently a BlueSAO certified THR Surgeon and speaker in Malaysia. Driven by a desire to provide the best possible care for his patients, he continually seeks out innovative techniques and stays up to date with the latest developments in his field.

In addition to his clinical work at the J B Animal Medical Clinic, Dr. Lee has taken on the role of a respected speaker in the veterinary community. In 2022, he had the honor of leading a basic orthopedic workshop at UMK (University Malaysia Kelantan) specifically designed for undergraduate students. His expertise and ability to effectively communicate complex concepts made him an invaluable resource for the participants.

Furthermore, Dr. Lee has been actively involved in numerous organizing and delivering basic and intermediate orthopedic workshops for veterinarians in Malaysia. These workshops, organized by LKVetorto & Anihealth, have been instrumental in enhancing the knowledge and skills of fellow veterinary professionals in the country. Dr. Lee's engaging presentations and hands-on demonstrations have contributed significantly to the success of these workshops. He is also an active speaker in MSAVA National Scientific Conference from year 2017 till 2023 and BlueSAO Annual Conference in Hefei, China from year 2023 to 2024. He is currently a post-graduate student in Master of Science (Surgery) in UMK.

Dr. Lee Yew Hong's dedication to the field of veterinary orthopedics, both as a clinician and a speaker, has earned him a reputation for excellence. He continues to make significant contributions to the advancement of animal healthcare in Malaysia, ensuring that animals receive the best possible care for their orthopedic needs.

DAY 1: 4.15PM - 4.30PM (STREAM 2)

Presentation Topic: A New Era in Feline Orthopaedics?: Preliminary to Mid-Term Success of Total Hip Replacement in Malaysia

Dr. Murshidah Mohd Asri

Universiti Putra Malaysia & Universiti Malaysia Kelantan

Dedicated Clinical Lecturer at UMK (2021–Present) and current PhD researcher at UPM under Dr. Intan Fatiha Shafie. Specializing in veterinary neurology and neurosurgery, with a targeted research focus on small animal epilepsy. Passionate about bridging advanced neurological therapies with foundational preventive care, including a strong secondary focus on small animal clinical nutrition.

DAY 1: 5.00PM - 5.15PM (STREAM 3)

Presentation Topic: Epidemiological Study of Small Animal Idiopathic Epilepsy in a Referral Centre

Dr. Lau Shu Xin

University Veterinary Hospital (UVH)
Faculty of Veterinary Medicine, Universiti Putra Malaysia

Veterinarian at the University Veterinary Hospital (UVH), Universiti Putra Malaysia (UPM), with nearly two years of experience in small animal clinical practice. Involved in the diagnosis and management of a wide range of medical and surgical cases in a general practice setting. Strong interest in small animal medicine and surgery, with a commitment to evidence-based practice and continuous professional development. Focused on expanding clinical knowledge and skills while contributing to the delivery of high-quality veterinary care through daily practice and ongoing learning in a busy clinical environment.

DAY 1: 5.15PM - 5.30PM (STREAM 3)

Presentation Topic: Diagnosis and Management of Immunosuppressant-Responsive Protein-Losing Enteropathy in a Dog With Concurrent Nutritional Therapy: A Case Report

Dr. Liu Shwu Yunn

Klinik Veterinar Tasik Prima Sdn Bhd, Puchong

Since 2009, I have dedicated my career to small animal practice, actively consulting in both veterinary medicine and surgery. Over the years, I have integrated my knowledge of conventional veterinary medicine with Traditional Chinese Veterinary Medicine (TCVM), including acupuncture and herbal therapies.

I believe the best medical outcomes arise from a balanced approach, combining the strengths of modern pharmacology with the holistic benefits of traditional medicine. This philosophy led to the founding of Klinik Veterinar Tasik Prima in 2014, with a mission to optimize patient care by integrating TCVM into conventional veterinary practice.

DAY 1: 5.30PM - 5.45PM (STREAM 3)

Presentation Topic: Gastrointestinal Pythiosis in a Malaysian Local Dog
